Program Foundation, Inc.

“ See It, Say It, Do It!”

Explore the creative power of your personal vision in this enlightening and highly interactive workshop. Through breathing, relaxation, and visualization activities, you will tap into the internal picture and feelings that have influenced your outer perception and performance. Have fun while dissolving internal blocks and allowing greater success, fulfillment, and peace of mind. Implementing these strategies with your vision therapy patients will enhance your patients' outcome. This two day workshop will inspire and transform you and your patients.

Learning objectives

You will gain knowledge and experience about:

Sunday:

1. How to evaluate and identify visual processing and visualization difficulties.
2. Visualization: The New Frontier. Create powerful imagery through relaxation and breathing awareness.
3. Using the See It, Say It, Do It! Model (adult definition: Visualize, Declare, Take Action, Transform!) in your vision therapy program at work, at play, and at school to increase performance and success. Ta-Dah!
4. Enhancing your patient's developmental readiness skills through bilateral integration and visual information processing activities.

Monday:

1. Visualization strategies to improve academic performance (reading comprehension, spelling, math facts and creative writing).
2. Building self-confidence.
3. Successful Vision Therapy patient management.

Presenter:

Lynn F. Hellerstein, O.D., FCOVD, FAAO, has inspired thousands of people to improve their vision and enhance their lives through vision therapy. For more than 30 years in optometric practice, she has treated children and adults with learning related vision problems, vision perception deficits or brain injuries. An author and international speaker, Dr. Hellerstein has published extensively on vision related topics. Her new award winning book, See It, Say It, Do It! The Parent's & Teacher's Action Guide to Creating Successful Students & Confident Kids (HiClear Publishing LLC., 2010) is a remarkable resource for parents, educators and therapists.

Dr. Hellerstein is a Fellow of the American Academy of Optometry, and Fellow and Past President of the College of Optometrists in Vision Development (COVD). In 2005, she created the COVD Tour de Optometry Program. As a COVD board member representing the Tour, she visited every school of optometry in the US and Canada. She is an adjunct faculty member of Illinois College of Optometry, Pacific University, Southern College of Optometry, and the University of Houston.

Dr. Hellerstein serves as a consultant to schools and rehabilitation facilities. Hellerstein and Brenner Vision Center, P.C., her private optometry practice, is located in the Metro-Denver area.

Visit www.LynnHellerstein.com for additional information.
