

# 44TH ANNUAL SOUTHERN CALIFORNIA VISION THERAPIST FORUM

**8-9 MARCH, 2019**

**BAHIA RESORT HOTEL  
SAN DIEGO/MISSION BAY**

**"Working with the  
Growing Population of  
Traumatic Brain Injury"**

**Speaker:  
Alma Privet**

Under the  
auspices of the  
Optometric  
Extension  
Program  
Foundation Inc.

Join us at the Bahia Resort in beautiful San Diego California for this two day, hands on, multi faceted experience. This course offers an ideal learning opportunity for all levels of Vision Therapist experiences (entry-level, intermediate or seasoned). This lecture will provide participants with hands on opportunities to role play and create activities and materials that can be implemented immediately in their offices. Case studies will be explored to learn how flexibility of thought and care is essential in this special population.

- **Featuring Alma Privet**
- **12 hours of continuing education credit sponsored under the auspices of OEP**

### **Alma Privet**

18 years' experience as a substitute teacher in all grades K-12 - in public and private schools. This choice was made so that I might be at home with our son, when he was not in school.

In the early 1990's I had the opportunity to join an optometric practice as a part time vision therapist. In a matter of months this grew to a full time position in another practice, working for my present employer, Susan Durham, OD, FCOVD. She and I have worked together almost 25 years now.

### **Education/Training:**

I obtained my status as certified OVT in 2000 and continue my membership status in COVD, NORA, and OEPP. My CE includes Bob Senet's Seminar series, OEPP's Clinical Curriculum, Paula's Neur with Dr. Bob Hohendorf for several years teaching the Foundation of Vision Therapy course offered through OEPP.

### **Personal:**

Wife, mother and grandmother - my favorite title! Married to same man - together we have served in ministry 43 years. Our son is an educator - a middle school choral teacher. Our grandson is 12 years old, a seventh grader taking 9th grade advanced math. He is smarter than his grandmama.

I love seeing lives changed in my role as a vision therapist!
