

“I would like to thank contributors and those involved in the OEP Student Mentor Fund for making it possible for students to attend life/career changing opportunities. You talked about the OEP campaign “Optometrists Change Lives”... I would say OEP is changing the lives/career direction of optometry students with their programs!”

~Jonathan Hall, Western University of Health Sciences College of Optometry, c/o 2014

Donate today to the Optometrists Change Lives™ Fund!

For the duration of its existence, the OEP Foundation Mentor Fund sought to support and encourage the next generation of optometrists. During the 2013-2014 enrollment cycle OEPPF will be transitioning the existing Mentor Fund into the new Optometrists Change Lives™ Fund in order to grow and revitalize those original efforts. This year’s goals include raising funds for:

- Student travel grants for the 7th International Congress of Behavioral Optometry.
- Production of media to disseminate to community organizations, parent groups, and allied health professionals about the many ways optometrists change lives.
- Growth of the new speaker development program.
- And MORE!

We encourage you to donate through the Optometrists Change Lives™ Fund. Please consider a donation in celebration of, as a token of appreciation for, a tribute to, or in memory of, your own mentors. OEPPF is a 501(c)3 non profit organization and the entire amount of your contribution is tax-deductible.
