# Speakers

## David Cook, OD, FCOVD

Clinician, author, and educator, Dr. Cook is one of the nation's leading authorities on vision therapy. After graduating from UCLA, where he was co-captain of the gymnastics team, and from Pacific University College of Optometry, he attended the Vision Therapy Residency Program at the State University of New York's College of Optometry, where he became a clinical instructor.

In addition to his books, *Visual Fitness* and *When Your Child Struggles*, which provide simple explanations about vision therapy, his professional articles have appeared in the top peer-reviewed journals of the optometric profession, including the *Journal of the American Optometric Association*, the *American Journal of Optometry and Physiological Optics*, and the *Journal of Vision Development*. His article, "Eyesight, Infinity, and the Human Heart," which describes the way in which vision therapy changes lives, was voted the "Best Non-Technical Article" by the Association of Optometric Editors.

Dr. Cook is a sought-after speaker. He has lectured on the non-surgical treatment of strabismus to such national groups as the American Optometric Association, The American Academy of Optometry, and the College of Optometrists in Vision Development. He is currently pioneering the use of 3D movies in the treatment of strabismus. In addition, he has addressed the International Reading Association, local educators, and the Georgia School of Occupational Therapists. He has appeared on such local television programs as Good Day Atlanta and Noonday.

Dr. Cook is a Fellow of the College of Optometrists in Vision Development and served on the organization's International Examination and Certification Board for six years. He currently teaches their thirteen-hour course on Strabismus and Amblyopia. He is also a Diplomate of the American Academy of Optometry in Binocular Vision and Perception. Dr. Cook is one of fewer than 100 such Diplomates in the world.

## Earl Smith III, OD, PhD, FAAO

Earl Smith received his Doctor of Optometry and PhD from the University of Houston in 1972 and 1978 respectively, and joined the faculty at the University of Houston College of Optometry in 1978. He is the past Dean of the University of Houston College of Optometry and was selected as the Greeman-Petty Distinguished Professor in Vision Development in 1988. His primary research interests are centered on the effects of normal and abnormal visual experience on the developing visual system.

## Janice Wensveen, OD, PhD

Janice Wensveen, OD, PhD received her Doctor of Optometry degree from the University of Waterloo School of Optometry and her PhD from the University of Houston College of Optometry. She is currently a Clinical Associate Professor at UCHO where she teaches clinical binocular vision. Her research centers on abnormal development of binocular vision, anisometropia, strabismus, and amblyopia
